What are calls for proposals?

With calls for proposals the Commission selects, on a competitive basis, organisations or natural persons to implement projects co-financed by EU because these projects contribute to EU policy aims.

In a nutshell:

- Advance payments allowed
- Reimbursement for real costs
- Deliverable is a report or completion of project

[See all calls for proposals >](#)

What are calls for tenders?

With calls for tenders the Commission aims to purchase goods, services or works in exchange for payment of an agreed price.

Is a nutshell:

- Payment to agreed conditions and price
- Delivery of goods, services or works in compliance with predefined requirements
- Execution according to contractual conditions.

Topic description

ExpectedOutcomes:

Projects are expected to contribute to the following outcomes:

- ability to process vast volumes data as one of the key enablers for other technological developments, supporting the competitiveness of the EU's industrial ecosystems;
- successful deployment of data spaces involving several sectors of economy or society;
- improve data access (in line with the FAIR¹ principles), data sovereignty, data interoperability and data protection as an essential factor in the development of sustainable value chains respecting all stakeholder interests, particularly SMEs, but also the public sector as data providers and innovation/market ecosystem enablers. The European Strategy for Data² calls for actions to support and promote data sharing.

Scope:

Proposals should address the entire data life cycle from data generation/creation to the final use and disposal/deletion of data (especially when required by applicable legislation, for example the General Data Protection Regulation (GDPR)³). Proposals should build on existing and emerging standards, models and architectures and complement/extend them as necessary in view of interoperability of systems and

Destination

World leading data and computing technologies (2023/24)

This destination will directly support the following Key Strategic Orientations (KSOs), as outlined in the Strategic Plan:

- KSO A, "Promoting an open strategic autonomy by leading the development of key digital, enabling and emerging technologies, sectors and value chains to accelerate and steer the digital and green transitions through human-centred technologies and innovations."
- KSO C, "Making Europe the first digitally led circular, climate-neutral and sustainable economy through the transformation of its mobility, energy, construction and production systems"

Proposals for topics under this Destination should set out a credible pathway to contributing to the following expected impact of Cluster 4 as set out in Horizon Europe Strategic Plan:

- Globally attractive, secure and dynamic data-agile economy, by developing and enabling the uptake of the next-generation computing and data technologies and infrastructures (including space infrastructure and data), enabling the European single market for data with the corresponding data spaces and a trustworthy artificial intelligence ecosystem.

SPECIFIC CONDITIONS FOR ACTIONS WITH PCP/PPI	36
H — Specific conditions for actions implementing pre-commercial procurement or procurement of innovative solutions	36

Projektu veidi

The following activities are generally eligible for grants under Horizon Europe:

Research and innovation actions (RIA) — Activities that aim primarily to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution. This may include basic and applied research, technology development and integration, testing, demonstration and validation of a small-scale prototype in a laboratory or simulated environment.

Innovation actions (IA) — Activities that aim directly to produce plans and arrangements or designs for new, altered or improved products, processes or services. These activities may include prototyping, testing, demonstrating, piloting, large-scale product validation and market replication.

Coordination and support actions (CSA) — Activities that contribute to the objectives of Horizon Europe. This excludes R&I activities, except those carried out under the ‘Widening participation and spreading excellence’ component of the programme (part of ‘Widening participation and strengthening the European Research Area’). Also eligible are bottom-up coordination actions which promote cooperation between legal entities from Member States and Associated Countries to strengthen the European Research Area, and which receive no EU co-funding for research activities.

Programme co-funded actions (CoFund) — A programme of activities established or implemented by legal entities managing or funding R&I programmes, other than EU funding bodies. Such a programme of activities may support: networking and coordination; research; innovation; pilot actions; innovation and market deployment; training and mobility; awareness raising and communication; and dissemination and exploitation. It may also provide any relevant financial support, such as grants, prizes and procurement, as well as Horizon Europe blended finance¹³ or a combination thereof. The actions may be implemented by the beneficiaries directly or by providing financial support to third parties.

Innovation and market deployment actions (IMDA) — Activities that embed an innovation action and other activities necessary to deploy an innovation on the market. This includes the scaling-up of companies and Horizon Europe blended finance.

Training and mobility actions (TMA) — Activities that aim to improve the skills, knowledge and career prospects of researchers, based on mobility between countries and, if relevant, between sectors or disciplines.

Pre-commercial procurement actions (PCP) — Activities that aim to help a transnational buyers’ group to strengthen the public procurement of research, development, validation and, possibly, the first deployment of new solutions that can significantly improve quality and

Public procurement of innovative solutions actions (PPI) — Activities that aim to strengthen the ability of a transnational buyers’ group to deploy innovative solutions early by overcoming the fragmentation of demand for such solutions and sharing the risks and costs of acting as early adopters, while opening market opportunities for industry. Eligible activities include preparing and implementing, under the coordination of a lead procurer, one joint or several coordinated PPI by the buyers’ group and additional activities to embed the PPI into a wider set of demand-side activities.

Maksimālā atbalsta intensitāte pa projekta veidiem

- Research and innovation action: 100%
- Innovation action: 70% (except for non-profit legal entities, where a rate of up to 100% applies)
- Coordination and support action: 100%
- Programme co-fund action: between 30% and 70%
- Innovation and market deployment: 70% (except for non-profit legal entities, where a rate of up to 100% applies)
- Training and mobility action: 100%
- Pre-commercial procurement action: 100%
- Public procurement of innovative solutions action: 50%

Other funding rates may be set out in the specific call conditions.

For **lump sum and unit grants**, the funding rate is already applied as part of the methodology for fixing the amounts and is therefore not shown in the grant agreement.

Izmaksu kategorijas

Budget categories and cost eligibility rules

The budget categories and cost eligibility rules are fixed in the grant agreement (*Data Sheet, point 3 and article 6*).

Budget categories:

- actual costs (i.e. costs which are real and not estimated or budgeted) for:
 - personnel costs (unless declared as a unit cost; see below);
 - subcontracting costs;
 - purchase costs (unless declared as a unit cost; see below); and
 - costs of providing financial support to third parties (if provided for in the specific call conditions);
- units (i.e. an amount per unit) for:
 - personnel costs of SME owners/natural persons not receiving a salary;
 - personnel costs calculated by the beneficiaries according to their usual cost accounting practices (average personnel costs);
 - costs of internally invoiced goods and services calculated by the beneficiaries according to their usual cost accounting practices; and

- specific unit costs (if provided for in the specific call conditions; see also Annex 2a of the grant agreement);
- flat-rate (i.e. costs calculated by applying a percentage fixed in advance to other types of eligible costs) for:
 - indirect costs (25% flat-rate of the total eligible direct costs, excluding eligible direct costs for subcontracting, financial support to third parties and any unit costs or lump sums which include indirect costs);
- lump sum (i.e. a global amount deemed to cover all costs of the action or a specific category of costs, if provided for in the specific call conditions).

Within a grant, different forms of costs can be used.

Costs can also be declared under several EU Synergy grants, if provided for in the specific call conditions and the funding under the grants does not exceed 100% of the costs and contributions declared to them.

AR KO SĀKT- PROJEKTU RAKSTĪŠANĀ?

- Nelielās komandās vai grupās pārrunājam idejas;
- Dalāties ar informāciju par projektu konkursiem vai iespējām;
- Savlaicīgi izpētām dalības nosacījumus un kritērijus programmās un tematikās, sekojam līdz regulārajiem konkursiem (nedaudz atšķiršies nosacījumi, pamat lietas bieži nemainīgas) (HE, FLPP, ERA-NET, COST)

TURPINĀM.....

Izvērtējam ar ko kopā startēt, vai kāds jāuzrunā kā organizācija – vai kā fiziska persona cilvēks-speciālists?

Ja kā organizācija – **būs projektā partneris** – un jādalās ar darbiem, atbildību un budžetu- RTU, LU, vai cita organizācija (FLPP tad tikai Zinātniskā institūcija, ja citas programmas projekts vairāk jādomā sadarbība no vienas valsts partnerības ar dažāda veida organizācijām – Augstskola, Zinātniskais institūts, Industrija, MVU, biedrība, asociācija utt.

Ja kā cilvēks – **speciālists**- jāzin, kā varēs pieņemt darbā savā organizācijā un kādā statusā- viespētnieks, inženieris, eksperts , laborants vai cits amats atbilstoši organizācijas lietotajām amatu saimēm un darba uzdevumiem projektā

DARBS KOMANDĀ UN TAS IR SPĒKS

Vienmēr meklējam savai idejai kompetentus-
zinošus partnerus (atbilstoši konkursa
nosacījumiem), un sadalām plānoto darbu un
aktivitātes («Dzirdīgs ausis un atbalsta plecu»)

Tad arī rezultāts neizpaliks 😊

IEGŪT neatņemamu PIEREDZI- KĻŪSTI PAR EKSPERTU
