* your proposal can have the same score as the cut off score yet not be funded, due to additional priorities (as defined in Work Programme) and the ex-aequo ranking decisions by the Panel.

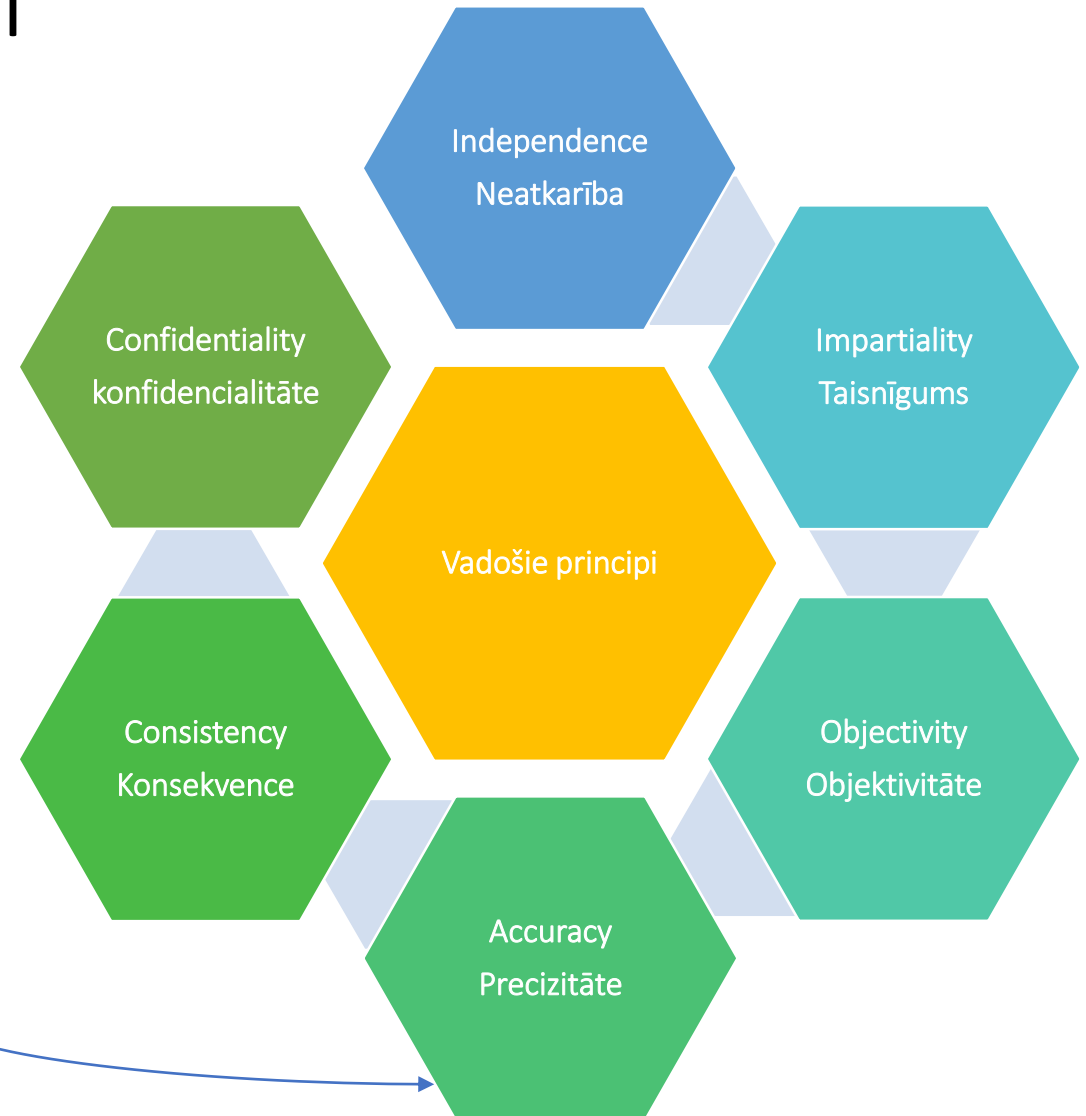

How to interpret this table
The percentage of proposals above the overall threshold and with a given score or higher is shown per ranking list. Green shows the funding range. Proposals below the overall threshold are shown separately and are not part of the cumulative total.
For example:
-in the EF-PHY ranking, 26.19% of all eligible proposals submitted in this ranking list scored 90 or higher. The funding cut off is 92.4.
-in the GF-SOC ranking, 25.96% of all eligible proposals submitted in this ranking list scored less than the threshold (70) and were rejected.

MSCA PF projektā ir citādāk sadalītas lomas F&T pieteikuma administrēšanā

MSCA	Fellow	<p>For Horizon Europe Marie Skłodowska Curie grants, it is the researcher (MSCA fellow) who applies for the grant and creates the application in the Portal (not the host institution which will become beneficiary).</p> <p>The researcher will therefore have access rights of Primary Coordinator Contact (PCoCo) and create the application with the organisation data of the host institution.</p>
	Supervisor	<p>When a successful application enters the grant preparation phase, Primary Coordinator Contact (PCoCo) role will be changed by us and given to the fellow's supervisor in the host organisation.</p> <p>Other persons can be given read-only access rights as Team Members.</p> <p>If you plan to implement the project at another institution than your regular employer, put the PIC of the future host institution.</p>

ERA Fellowships, portālā ķeksis

Other Questions

4. Is there a secondment envisaged in Part B of this proposal?

Yes No

The following are not considered as secondments:- outgoing phase of a Global Fellowship- optional six-months placement in the non-academic sector- short visits or field work

Total duration of the secondments - up to 1/3 of total project duration (in months):

5 Do you wish to participate to the ERA Postdoctoral Fellowships and thus increase your chances of being funded?

Yes No

If you don't reply or if you maintain 'No' as your answer, be aware that your proposal will not benefit from an extra chance of being funded under the ERA Postdoctoral Fellowships in case it cannot be funded under the MSCA Postdoctoral Fellowships (MSCA-PF). A dedicated budget from the Work Programme "Widening participation and strengthening the European Research Area" has been set aside to fund those proposals. European Postdoctoral Fellowships proposals where the host organisation is located in an eligible widening country (according to the PIC number) but were not funded under MSCA-PF call due to a lack of budget, can be automatically duplicated into the ERA Postdoctoral Fellowships call. Eligible proposals will be duplicated into the ERA Postdoctoral Fellowships call only if you express your wish to do so. Your decision not to participate in the ERA Postdoctoral Fellowships will not affect your chances of being funded directly under the MSCA-PF call.
